

## CenterPoint Energy

### Savings Opportunities for Tri-State Manufacturers' Alliance Members

#### Save with CenterPoint's Commercial Energy Efficiency Programs

As we gear up for the Evansville Region Manufacturing Summit, we wanted to take this opportunity to let our members know about the myriad savings options available through CenterPoint Energy's Commercial Energy Efficiency Programs.

There are options available for every facility type and every need, whether you're getting quick cash back on commonly installed energy-efficient equipment through the Prescriptive Program, or seeking a tailor-made solution through the Custom Program, your business can save now and well into the future thanks to CenterPoint!

Members are encouraged to find out how much they could be saving with CenterPoint by following the link below.

[Wabash Plastics Case Study](#)

If you're curious about how the Commercial Energy Efficiency Programs work, CenterPoint recently published a case study about the compressed air project that Wabash Plastics completed through the Prescriptive Energy Efficiency Program, which is saving them more than \$55,000 per year!

If you have any questions about the CenterPoint's Commercial Energy Efficiency Programs, always feel free to reach out to:
